Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE One MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

- I. Claims 1 and 21-39 are pending.

Election/Restrictions

- II. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372:

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1:

1. Claims 1 and 21-27, drawn to a **screening method** for determining whether a compound is useful for treating, stabilizing, or preventing a condition in a mammal selected from the group consisting of a higher than desired total body weight and a higher than desired percentage of body fat, said method comprising measuring VEGFR1 activity in a cell, tissue, or mammal in the presence and absence of said compound, whereby said compound is determined to treat, stabilize, or prevent said condition if said compound decreases VEGFR1 activity.
2. Claims 28-39, drawn to a **method of treating**, stabilizing, or preventing a higher than desired total body weight or a higher than desired percentage of body fat in a mammal, said method comprising administering to said mammal a **compound** that decreases VEGFR1 activity in an amount sufficient to treat, reduce, or prevent a higher than desired total body weight or a higher than desired percentage of body fat.

The inventions listed as Groups 1-2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under unity of invention practice as it applies to cases filed under 35 U.S.C. 371, unity of invention between different categories of inventions will only be found to exist if specific combinations of inventions are present. Those combinations include:

- (A) A product and a process specially adapted for the manufacture of said product; or
- (B) A product and a process of use of said product; or
- (C) A product, a process specially adapted for the manufacture of the said product, and use of the said product; or

Art Unit: 1644

(D) A process and an apparatus or means specifically designed for carrying out the said process; or

(E) A product, a process specially adapted for the manufacture of the said product, and an apparatus or means specifically designed for carrying out the said process.

The allowed combinations do not include multiple methods of using said product as claimed in the instant application, see MPEP§ 1850.

- III. Accordingly, Groups 1-2 are not so linked as to form a single general inventive concept and restriction is proper.
- IV. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed.
- V. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Huynh "NEON" whose telephone number is (571) 272-0846. The examiner can normally be reached Monday through Friday from 9:00 am to 5:30 p.m. A message may be left on the examiner's voice mail service. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christina Chan can be reached on (571) 272-0841. The IFW official Fax number is (571) 273-8300.
- VI. Any information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>.
